Byron B. Bradd, P.E.
Plant Manager
ETICAM
P.O. Box 1075
Fernley, Nevada 89408

Dear Mr. Bradd:

In response to your letter of August 18, 1987, regarding the disposition of the salt produced from treatment of the effluent from the evaporator/crystallizer, it is the opinion of the Waste Management Section that since the effluent results from a waste stream permitted by the Water Quality Section, the salt would not be classified as a listed hazardous waste. What remains would be determination by ETICAM that the salt did not meet any of the criteria for a characteristic hazardous waste. Should the determination show that the waste is not hazardous, it may be disposed in a permitted sanitary landfill.

Should you have any questions concerning this matter, please contact me.

Sincerely,

Thomas J. Fronapfel

Thomas J. Fronapfel, P.E.
Environmental Engineer
